Current Responsibility

Carmen Laudenschlager is a principal and consulting actuary with the Indianapolis office at Milliman. She joined the firm in 2014.

Professional Work Experience

Carmen is a key contributor and project manager to many aspects of actuarial consulting services that are provided to state Medicaid agencies. She has extensive experience with managed care capitation rate development for TANF and disabled populations, as well as dual demonstration programs, calculation and management of semi-annual risk adjustment factors, budget forecasting, fiscal impact analyses, state-directed payment consulting and strategic analysis, reserve analysis, and oversight of provider reimbursement analyses.

Professional Designations

- Member, American Academy of Actuaries (MAAA), 2007
- Associate, Society of Actuaries (ASA), 2007

Education

Bachelor of Arts in Actuarial Science, Butler University, May 1996

Presentations and Publications

- *Pass-through payment guidance in final Medicaid managed care regulations: Transitioning to value-based payments, delivery system reform, and required reimbursement.* Milliman white paper co-author. May 2016.
- *State-directed payment considerations for the CMS Medicaid and CHIP Managed Care Access, Finance, and Quality proposed rulemaking.* Milliman white paper co-author. May 2023.
- Speaker, Human Services Financial Officers (HSFO). Annual Conference, August 2023.
